

Joel Gregier, CDGP

Instructor Mentor

“My goal is for students to leave training having experienced an “A-ha!” moment. I work to present in a clear, precise way that helps even experienced industry professionals learn something new.”

Instructor Info

As an Instructor Mentor with Lion Technology, Joel designs and presents public, online, and webinar training and supervises other instructors to ensure all Lion students receive consistent, effective instruction.

Joel has worked as a regulatory expert for a large chemical company with responsibilities including DOT, GHS, DEA, TSCA, and EPA-related compliance. Joel is a certified Dangerous Goods Professional (CDGP), an OSHA-authorized Instructor for General Industries, and holds a Bachelors' degree in Ecology, Evolutionary, and Environmental Biology from Columbia University.

Experience

- Extensive knowledge of Federal and international hazmat laws and regulations
- Lead instructor and content expert for the Shipping Lithium Batteries courses
- Develops and designs exercises, tutorials, and other content for Lion's reference materials and online courses
- Trains and assesses new instructors
- Presenter at the AHMP Conference in '14, '18, and '20
- Presenter at the Eastern Aerosols Association Meeting in '14
- Presenter at the Environmental Show of the South in '19
- Presenter at the CUPA Forum Annual Conference in '21

Areas of Training Expertise

- 49 CFR, IATA, and IMDG Hazmat Shipping Regulations
- RCRA Hazardous Waste Regulations
- DTSC Hazardous Waste Regulations (California)
- NYSDEC Hazardous Waste Regulations (New York)
- TCEQ Hazardous Waste Regulations (Texas)
- Shipping Lithium Batteries Regulations
- OSHA General Industry Regulations (e.g. GHS HazCom, HAZWOPER)

Developing Expert Trainers

Lion Technology delivers on the promise of effective training by ensuring all Lion instructors are not only experts in the regulations, but also engaging presenters and educators. Instructors refine their presentation skills through in-house demonstrations and trial workshops in front of our research and instructional staff, preparing them to answer detailed regulatory questions in the classroom. Through this proven process, Lion instructors build the skills to keep students engaged and expand their compliance knowledge.

What students say about Joel:

“Joel was very patient and attentive to our questions. He made the course quite enjoyable.”
- John A., Systems Engineer
Alameda, CA

“The depth of instructor knowledge is always beyond any other training (classroom or web-hosted) that I have participated in.”
-Linda A., Safety & Environmental Compliance Officer
Highlands, NJ

“Joel is an excellent instructor. I learned a lot and he made class fun.”
-Santee P., Logistics Analyst
Chicago, IL
